Public Request

Village Residents and General Public as well as our Amish Neighbors,

The Village of Rensselaer Falls would like to give you information of the current status of the CoronaVirus Pandemic that is impacting our Country. For those of you who may not be aware of what is going on, there currently is a Virus spreading through the United States that significantly affects people who are considered high risk. Anyone who is 60 years of age or older, the younger children, and those who have other underlying medical issues, such as diabetes, cardiac (heart) issues and breathing problems.

The Governor of New York State has issued, and order that all non-essential people stay home. The only reason that anyone should be out of their homes and in the public is for medical issues and to get food. We are asking that you share this information with your community and follow the directives of the Governor. We want to stop the spread of this virus for the good of all of our community.

For those of you who have phones and have questions please call James Blackburn at 315-854-4855 or you may stop at my home at 413 Rensselaer Street in Rensselaer Falls. We have also attached some flyers from the CDC to help you understand how to mitigate the spread of this virus. We thank you for your attention to this matter.

Regards,

James Blackburn

James Blackburn, Village Trustee
Village of Rensselaer Falls

Respectfully,

Michael S. Hammond

Michael S. Hammond, Mayor
Village of Rensselaer Fall.
